

REMARKS

Also submitted herewith, in computer readable form is a disk containing a copy of the Sequence Listing as formatted using PatentIn Version 2.0.

In addition, also submitted herewith is a statement that the content of the paper and computer readable copies are the same and include no new matter.

Accordingly, it is respectfully submitted that with the submission of herewith the application complies with the requirements of 37 CFR §§ 1.821-1.825.

Finally, the Examiner's attention is directed to a interim submission of a SEQUENCE LISTING as an attachment to the principal response filed September 3, wherein it is noted that in the sequence set forth a typographical error occurs in setting forth the second amino acid of the sequence wherein it is set forth as "LEV" (sic) which of course should have been LEU. The undersigned regrets the typographical error, which error is of course not reflected in the formal submission herewith of the paper copy and computer readable form of the Sequence Listing.

Further action in respect of substantive examination  
of the application is now awaited.

Respectfully submitted,

Burton Scheiner  
Registration No. 24018
